DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C.

121:

- I. Claims **1-5, 16**, drawn to a mobile are performing initial ranging, classified in **class 455, sub-class 437**.
- II. Claims **6-9**, drawn to a base station are performing initial ranging, classified in **class 455, sub-class 438**.
- III. Claims **10-15**, drawn to Hand-off control system, Classified in **class 370, sub-class 331**.

The inventions are distinct, each from the other because of the following reasons:

Inventions Group I , Group II , and Group III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention Group II has separate utility such as storing the calling party number. See MPEP § 806.05(d).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
